Input Graph 1

Input Graph 2

Input Graph 3

Input Graph 4

Input Graph 5

The graph displays a complex network of 22 nodes, numbered 0 through 21. The nodes are color-coded into five groups: blue (0, 2, 3, 5, 15), orange (8, 16, 21), green (4, 7, 10, 11), cyan (1, 9, 20), and red (12, 19). The connections are represented by black lines, with a dense cluster of edges in the center and a sparser, more elongated structure on the left. A faint background network of gray nodes and lines suggests a larger context or a different set of connections.
