

Input Graph 0

Input Graph 1

Input Graph 2

Input Graph 3

The image displays a complex network graph with 23 nodes, each labeled with a number from 0 to 22. The nodes are colored in a repeating pattern: blue (0, 1, 6), orange (8, 11), green (4, 5, 12), and red (7, 10, 13, 22). The graph is highly interconnected, with many nodes having multiple connections. The layout is somewhat circular, with nodes distributed around a central area. The edges are represented by black lines, and the overall structure suggests a dense, interconnected network.
